

# **TOWN OF WALPOLE, NH**

## **BUILDING DEMOLITION APPLICATION**

### **-Instructions-**

1. The purpose of obtaining a demolition permit is to let the Town's assessing department know that a building has been removed from a property and should be removed from the tax card. This allows the property to be taxed correctly.
2. A permit should be obtained before the start of the demolition process. A photo of the structure before and after the demolition process with dating can assist with setting assessment adjustments.
3. A fee of \$10.00 must be paid when submitting an application for a demolition permit. A permit shall become void unless operations are begun with a period of one year.
4. Town of Walpole Water/Sewer Department must be notified if the property has Town water and/or sewer.

If you have questions, please contact the Selectboard Office.
